Certain medical conditions and medications may preclude some people from introductory and certified diving. For advice, contact our office. The minimum age for introductory scuba diving is 12 years, however some older age persons may require a doctor's certificate.

After a single dive a wait of 12 hours is recommended before ascending to an altitude of 300 metres or greater. If doing multiple dives an interval of 24 hours is suggested.

Snorkelling can be a strenuous activity.

Please use caution and inform our crew of any medical conditions. Certified divers must have proof of certification. For advice and more information, contact our office or see our website www.poseidon-cruises.com.au
